Rex and Staley Dishman

Proud Fathers of Chrysler Fund Scholarship Winners

Betsy and Rex are seniors at Chrysler High School and are planning to enter Purdue University this fall. Betsy is active in speech, the National Forensic League, Thespians, Junior Achievement, Cheer Block, is a member of the National Honor Society and Activities Editor of the Rosennial at Chrysler High. She plans to major in speech in the school of humanities at Purdue.

Rex, earned an athletic letter and was captain of the Chrysler High School wrestling team this year; is a member of the "N" Mens Club, Student Council, Phoenix Staff, and the National Honor Society. The crest on his jacket is for his high scholastic average in high school. He plans to enter the school of engineering at Purdue.

Jim Smith, also a senior at Chrysler High School, is President of the National Honor Society, is on the Trojan Tribune staff, was a delegate to Boys State in 1965 and also attended the Government

Mary and Jim Smith

since 1943 and a millwright since 1948.

Selections were made on the basis of the qualifying tests, recommendations, citizenship records, leadership abilities, extra-curricular activities and high school grades.

The scholarships range from \$250 to \$1500 yearly for each winner who attends college. The total amount of each scholarship is determined by the student's need for financial assistance.

This year the Fund is awarding \$119,600 in scholarships to 150 high school seniors in 19 states. These scholarships bring the Fund's total to 383 awarded since 1962, when the current program started. The Chrysler Fund scholarship program is the largest of its type in terms of number of scholarships it grants yearly.

John and Betsy Francisco

Leadership Conference. He plans to major in English at Ball State University and become an English Professor. He is the son of Raymond L. Smith department 0720 (Forge Plant) and Mary Smith, who has been our substitute nurse since 1964.

John Francisco is in his 31st year with Chrysler and has been in the Tool Process Engineering department since 1947. Staley has been with Chrysler Machining
